Inhaltsverzeichnis

Kapitel 1

Setup

On a *debian* system:

```
apt-get -y install pandoc
apt-get -y texlive-fonts-extra
apt-get -y texlive-luatex
apt-get -y texlive-lang-german
```

Kapitel 2

Run

Write your some–name–doc.md and execute in the same folder ./doc.sh and maybe adjust the variable PANDOC_LANG.

Ship a nice PDF.

Kapitel 3

ToDo

Include examples with pictures.
